

TEOSYAL® PURESENSE

Redensity [II]

TEOSYAL® PURESENSE REDENSITY [II]:

AWARD WINNER OF THE BEST DERMAL FILLER – 2nd Anti-Aging & Beauty Trophy

TEOSYAL® PureSense Redensity [II] is a major TEOXANE innovation in under-eye circle treatment. This unique hyaluronic acid-based gel was created to answer **the most significant aesthetic concern for patients: under-eye circles**¹. TEOSYAL® PureSense Redensity [II] is specially designed to treat dark hollow circles, tear trough, palpebromalar groove and minimal palpebral or malar bags.

Its sophisticated formula combines a mix of cross-linked and non-cross-linked hyaluronic acid with a 15mg/g concentration. Therefore its **rheological profile** is particularly adapted to the fragile under-eye circle area as it **decreases the risk of swelling**²:

- **Low Hygroscopic behavior:** thanks to a combination of cross-linked and non-cross-linked hyaluronic acid at 15mg/g concentration.
- **Light gel to minimize pressure on the tissue.**
- **Ideal viscoelasticity for optimal spreading and positioning capability:** reducing the risk of edema, for a natural and homogenous correction.

This innovative 3-in-1 formulation also includes a **Patented Complex**³, to improve skin quality², as well as **lidocaine**, a local anesthetic to provide maximum comfort to the patient.

During the first session, under-correction is recommended (no more than 0.5ml for each under-eye circle) and a touch-up session can be scheduled one month later, only if necessary.

Over 180,000 patients have been injected with TEOSYAL® PureSense Redensity [II] since its launch in 2012 and an international clinical trial demonstrated that **according to 90% of practitioners the global aesthetic result (cf. GAIS: Global Aesthetic Improvement Scale)² had "improved" to "much improved"**. This multicenter trial proved the product **efficacy and safety**² - with an average injected volume of 0.475ml on each side - which leads to an unmatched level of patient satisfaction: **9 out of 10 patients would recommend TEOSYAL® PureSense Redensity [II]**. **With TEOSYAL® PureSense Redensity [II], the promise of a safe, natural and long lasting correction for under-eye circles is fulfilled.**

"The tear trough has always been considered a difficult region to treat; both for its intrinsic nature and due to the difficulty in finding materials that are less hydrophilic. TEOSYAL® PureSense Redensity [II] can be used safely to achieve good results in this challenging area."

Giuseppe Sifo, M.D.
and Patrizia Piersini, M.D.*

About TEOXANE Laboratories

TEOXANE Laboratories were established in Geneva in 2003 and are specialized in the design and manufacturing of hyaluronic acid-based dermal fillers. As a result of its uncompromising commitment to innovation, quality and patient satisfaction, TEOXANE is now among the top three hyaluronic acid-based dermal fillers manufacturers in the world with products in more than 80 countries. For more information, please visit www.teoxane.com.

About The Anti-Aging & Beauty Trophy

The Anti-Aging & Beauty Trophy is presented by EuroMediCom to recognize companies which thrive to innovate products and devices in the field of Aesthetic and Anti-Aging Medicine. TEOXANE Laboratories are honored to have been awarded the Anti-Aging & Beauty Trophy for TEOSYAL® PureSense Redensity [II], as "Best Dermal Filler".
