

TEOSYAL® PureSense

Kiss

NEW FORMULATION

TEOXANE LABORATORIES ARE LAUNCHING AN EXCLUSIVE NEW FORMULATION OF TEOSYAL® KISS

TEOSYAL® Kiss New Formulation is a hyaluronic acid-based filler specifically adapted to the mobility of the lips. It offers a **long-lasting efficacy** thanks to its **high cohesivity**. With this innovative formulation, **TEOXANE Laboratories offer enhanced safety, tolerability and natural results** for this delicate area. Owing to its **ideal elastic profile**, this **smooth gel** is very **soft** and **easy to inject**, allowing optimal control of the injection for the practitioner.

The perioral area is the **second esthetic concern of women** after the eye area¹. This delicate area is very sensitive and highly vascularized, therefore a specifically adapted product is a must to obtain optimal results. **TEOSYAL® Kiss New Formulation redefines** the lips' contour and corners, **enhances** the lips' texture with more hydration and softness and **plumps** the lips in harmony for a well-balanced correction.

TEOSYAL® Kiss New Formulation is also available **with lidocaine (0,3%)** for **more comfort** for the patient. Thanks to harmonious and natural results, **TEOSYAL® Kiss** proved its efficacy and is the perfect answer to patients' needs as **94% would recommend a treatment with Kiss New Formulation, and 82% would do it again²**.

About TEOXANE Laboratories

TEOXANE Laboratories were established in Geneva in 2003 and are specialized in the design and manufacture of hyaluronic acid-based dermal fillers. As a result of its uncompromising commitment to innovation, quality and patient satisfaction, TEOXANE is now among the top three hyaluronic acid-based dermal fillers manufacturers in the world with products in more than 80 countries.
